

Pubnet Document Tracking

The system can be accessed here: <https://www.pubnet.org>

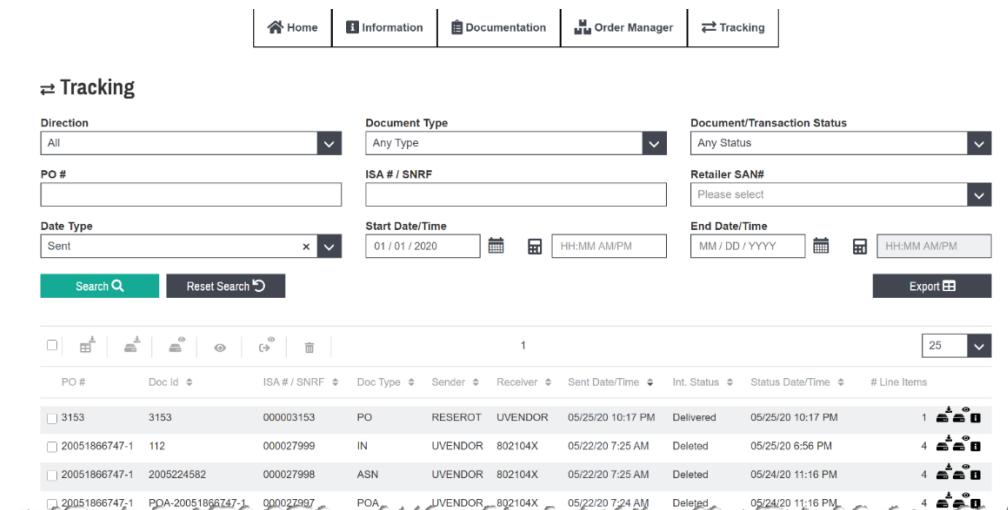

Log in with your existing Pubnet credentials. If you've forgotten your password, simply click on the [Forgot your password?](#) link.

After logging into the system, the Tracking area is displayed and will allow searching.

Search Sample – search results are sortable on any of the columns

The Tracker knows the time zone you are in. All times displayed in local time zone.

To open a document, simply click somewhere on the line. Note the distinct options available and that you can now “redeliver” (requeue yourself) “retrieved” interchanges to you or trading partner.

Int. Status:

Delivered

- Document has been put into the recipient's mailbox. This doesn't indicate whether the recipient has opened the document.

Retrieved

- Recipient has logged in and pulled the data OR
- Document handed off to a remote service if the recipient is an interconnect partner OR
- The recipient has Pubnet push the data out to their own ftp server

Deleted

- The receiver logged in and deleted the document
- A retrieved file naturally aged off the system after 5 days
